Plant Auction Viewer's protocol - Driefontein

Message

All Contractors/Visitors must attend the Plant induction before being allowed into the Plant. They must be accompanied by a dedicated Plant official to the specific area where the items are stacked and not to loiter around the plant. The viewers will be escorted by the protection services officers during the viewing.

They should all be informed that they will be subjected to a search upon exit via X – Scan, alternatively with a hand held metal detector should the old search cubicles be utilized.

People from the community or public will be treated as visitors to the plant and will be bind by the plant procedure.

Only 05 people will be allowed to enter the plant on the same time for the purpose of the auction.

The viewers will not be allowed to be scattered all over the plant but, should remain in a group under the observations by the protection services officer.

Contraband

There are items that are not allowed to be taken into and out of the plant and such items are money, Zambuc, Cigarette lighters, Cigarette, jewellery, food stuffs, firearms, Cell phones, Cameras ETC. All these items must be left outside the plant to avoid some inconveniences.
