3. Estimation of Weights Advertised

3.1 Tare weights shown have been obtained from the manufacturer's data sheet. It is the bidders/buyers sole responsibility to satisfy themselves of the correctness of the tare weights and the correctness of the actual weight. The estimated weight is for guidance purposes only and any reliance by the bidders/buyers on such weight is done so at their own risk and the auctioneer does not accept any liability for any deviation of the estimated weight from the actual weight.

3.2 All weights shown in the lot catalogue is for guidance purposes only.

3.3 GoIndustry DoveBid South Africa (Pty) Ltd. are selling units and NOT mass, unless specified.

3.4 GoIndustry DoveBid South Africa (Pty) Ltd has deducted 9% from the estimated weights in order to allow for wear and tear, corrosion and missing parts/components from lots (units) and for reclaimable components. Notwithstanding, this further deduction the bidders/buyers should in no way whatsoever regard the estimation as correct and the actual weight may still substantially differ/vary from the actual weight.

3.5 The bidders/buyers accept that the actual weight may differ/vary from the estimated weight and the bidders/buyers should inspect the lots (units) to satisfy themselves of factors which may affect the actual weight.

3.6 Included in the 9% deduction is an allowance for Transnet to reclaim certain components such as and not limited to: Couplings, Break Boosters, springs, Piping etc. Kindly contact Herman Liversage for a complete list of these components.

3.7 These components will be marked with spray paint identifying the components Transnet wish to reclaim. The purchaser is to take care as to not damage these components during the scrapping process.

3.8 Some lots may be sold without the bogies and/or wheels. The estimated weight is the weight without bogies and/or wheels, if the bogies and/or wheels are not included with the lot. However it is the bidder's responsibility to satisfy themselves that these weights shown are accurate.

3.9 Please note that all bogies included with your lot, must be damaged on site prior to removing from the cutting site.

3.10 All rolling stock wheels (iron and steel) need to be cut through the ride surface to such a degree that the wheels cannot be re-commissioned.

3.11 This will be done by flame cutting a single cut through the tyre section 100mm into the wheel centre, as well as flame cutting through the entire bearing centre, thereby rendering these components useless for any future rolling stock application.

3.12 The side frames of the bogies must be totally cut in half as well.

3.13 The axles must be totally cut in half.

3.14 All metals sold on this event, regardless of the current form, have been declared as scrap articles by Transnet and therefore any further disposal/sale of the goods bought are governed by the latest ITAC regulations. (International Trade Administration Act, 71 of 2002 (the Act))

3.15 Any bogies that are shown to remain as per the downloadable documents must be disabled and not running free on the tracks. The buyer shall either remove the bogies totally from the track, or take at least 2 wheels off the tracks, by means of a hydraulic jack, so these bogies cannot be moved freely. This is a safety issue and it is imperative that this instruction is followed

3.16 Certain Lots may be sold on a Price per Ton Basis. Weights and payments to be reconciled by means of weigh bridge tickets. The Bid Price is based on Price per Ton, however in the interim you will be invoiced for on an approximate weight pending verification per weigh bridge tickets. This will be made clear in the description of the lot.

3.17 No claims will be entertained post auction if there is any discrepancy in weights.

3.18 All risk shall be transferred to the buyer on invoice of lots purchased.

3.19 The buyer shall be invoiced for any damage to the reclaimable (bogies, coupling) during the processing of the purchased lots.

4. Payment & Clearance Notes

4.1 Payment Date: 28 June 2018

4.2 Clearance: 05 July 2018

4.3 Buyer's Premium of 16% (as indicated in the Conditions of sale) will be added to your winning bid on the invoice.

4.4 VAT/Tax: 15% will be charged on all sales including buyer's premium

4.5 All Monies due must be paid by direct transfer (EFT) only.

4.6 Default on payments:

4.6.1 Should payment not be received and cleared into our account within 7 days of invoice, your invoice will be cancelled and you will forfeit your registration fee.

4.6.2 We reserve the right to resell the assets and keep you liable for any shortfall and/or spilled costs.

4.6.3 In the event that the breach/default has not been rectified you will not be allowed to take part in any future GoIndustry DoveBid auctions.

- 4.7 Collection/Removal Date of the rolling stock scrap (Lots 1-100) shall be 30days from the date of the approval/sign-off of the Health & Safety EMP file.
- 4.8 Kindly note that all release notes from Lot 1 – 100 will be issued to the relevant Transnet Asset Disposal team and a representative will contact you regarding collection. Furthermore lots 101 onwards the release note will be issued to the TFR SCS team and a representative will contact you.
- 4.9 Please ensure that the wagons are verified on site against the lot downloadable document. Verification must be confirmed by way of a signature on the downloadable document.
- 4.10 Bidder must sign in the signature column for each wagon.
- 4.11 Transnet Representative to co-sign in space provided on downloadable document.
- 4.12 The signed downloadable document to be emailed immediately to Willie Botha and Charmaine Barnard: Willie.Botha@liquidityservices.com / Charmaine.Barnard@transnet.net BEFORE any processing/cutting can commence.
- 4.13 Should items bought not be removed from site on or before the specified clearance date, you will forfeit your registration fee. Furthermore you will be charged storage fees from the first day after the clearance date until date of removal, at R500.00 per day.
- 4.14 Please note that once an item has been removed from site this will confirm that the buyer has satisfied themselves with the purchase. Should the buyer encounter any problems with the purchased goods then no items should be removed. GoIndustry DoveBid should be notified immediately. On notification an investigation will be entered into, kindly note that we reserve our rights as set out in Clause 5 hereof.
